

## Poster Session

The poster session takes place on September 18, 2017, 6 p.m. at Fraunhofer IKTS Dresden. If you decide to present a poster, please register as poster presenter.

For this symposium, a book of abstracts will be printed. For announcing your poster, please use the **abstract template** provided in the download section, and send it back to us as soon as possible.

The poster itself should ideally be in DIN A0. There are no further layout restrictions. However, we would like to point out that in terms of content these poster need to be scientific. So please abstain from company presentations in that context.

## Industrial Exhibition

The symposium is complemented by an industrial exhibition that offers an efficient contact platform and opportunity to learn about the latest developments.

We cordially invite you to participate as an exhibitor at the symposium.

- Each booth is about 5 square meters in size with a table, a poster board (DIN A0 = 33.1 × 46.8 inch), a chair and on request a power supply.
- We publish your company logo with link to your website at this place and a brief company profile in the conference documents.
- The exhibitor fee of 1.000 Euros plus 19 % VAT includes the booth as described and the conference fee for one person.
- For a second exhibitor person a reduced fee of 200 Euros will be charged.

Of course you can bring your own booth. In this case we have to know the size of your booth. If you have further wishes or if you need more space for your exhibits do not hesitate to contact us.
