

Invitation to the second Autumn Forum

From smart sensors and MES systems to remote maintenance and monitoring

Our second Autumn Forum will take place on **26 and 27 September**. Compared to last year, a lot has changed. This year's guided tour through our manufacturing focuses on condition monitoring. We present our own control system, which is exclusively equipped with our own sysWORXX hardware.

The rest of the event will take place in the Bioseehotel in Zeulenroda (Thuringia). In addition to the keynote, which will provide an outlook on future challenges for the industry, we will once again present a new product from our own sysWORXX brand.

For the first time this year a **Hackathon** will take place in parallel. Thereby our sysWORXX products are used for use cases in the following areas:

Program & Registration

Please send your registration with the number of participants and whether you would like to participate in the lecture series or the hackathon by e-mail to herbstforum@sys-tec-electronic.com by **23.07.2018**.

The preliminary program can be found here:

[Download Program \(PDF\)](#)

Since the number of participants is limited and registrations have already been received, please register by **23.07.2018**.

We look forward to your visit and two exciting and successful days. The event will be in German.

Your SYS TEC electronic team
