

We kindly invite you to our

TRANS³Net.visit

to the Helmholtz Institute Freiberg
for Resource Technology

Freiberg, 14th February 2019

Topic

Transregional cooperation and exchange in the field of resource technologies. The event takes place in cooperation with the UVR-FIA GmbH; a Saxon company specialized in mechanical process engineering and the Helmholtz Institute Freiberg for Resource Technology. The institute belongs to the Helmholtz-Zentrum Dresden-Rossendorf (HZDR), conducts research along the whole value-added chain of raw materials, and is a core member of the European EIT Raw-Materials network.

Objectives

Presentations, discussions and a round tour inside the Helmholtz Institute Freiberg and UVR-FIA GmbH. Establishment of contacts to Freiberg, one of Germany's most vital location for resource technology development.

Target groups

Enterprises that are looking for energy efficient technologies for the exploration, beneficiation, extraction, and recycling of strategic minerals and metals as well as for transfer promoters that are interested in resource technologies from Germany, Poland and the Czech Republic.

Venue

Helmholtz Institute Freiberg
Helmholtz-Zentrum Dresden-Rossendorf (HZDR)
Chemnitzer Straße 40
DE-09599 Freiberg

Date

14th February 2019

Agenda

12:30	Arrival and Registration of participants with light lunch
13:00	Welcome address and presentation of the Saxon-Czech project RECOMINE Dr. Jens Gutzmer, Director Helmholtz Institute Freiberg
13:20	Introduction to UVR-FIA GmbH Dr. Henning Morgenroth, managing Director UVR-FIA GmbH
13:30	Short introduction of TRANS3Net project Dr. Grit Krause-Jüttler, CIMTT Centre for Production Engineering and Management (Technische Universität Dresden) Short introduction of participants
13:50	Overview of common challenges and potential cooperation in the raw materials sectors Krzysztof Kubacki, Innovation Hub Director CLC East, EIT Raw Materials (requested)
14:10	Discussion about cooperation ideas between participants of the visit and representatives of the research institute and the company
14:45	Round tour: Visit of the UVR-FIA GmbH and the Helmholtz Institute Freiberg
16:00	Networking with coffee Further exchange of experiences among the participants

The event will be hold in English. There will be no interpretation provided.

How to get to the venue and parking space

Due to constructions next to the institute's building, parking places are unfortunately very limited. We kindly ask you to park in the surroundings of the institute.

Registration

Please register until 11.02.2019 at

Wirtschaftsförderung Erzgebirge
