energy saxony meet online
26.03.2024

Online Workshop

26th March 2024, 2-4 pm

14:00 **Welcome and Introduction**

Sarah Dinter, International Consultant, Leipzig Chamber of Commerce & Industry, Enterprise Europe Network

Moderator: Constantin Wolf, Project Coordinator Energy Saxony e.V.

14:10 **Pitches (à 10 min + 5 min Q&A)**

- **Green energy innovations - from base load-capable hybrid power plants using high-altitude wind towers and biological methanation to circular-based microalgae production**
Lea-Johanna Liebscher, GICON - Großmann Ingenieur Consult GmbH
- **Compact and efficient energy storage based on iron oxide and hydrogen**
Matthias Rudloff, AMBARtec AG
- **How to discover new products and enter new markets in the hydrogen and green energy sector**
Tom George, move technology GmbH
- **“Heat on the Street” - Innovative thermal energy systems (TES) based on phase change material**
Thomas Kagemann, PCM Energy GmbH
- **Sustainable utilization of biomass and residual materials**
Thomas Müller, aremtech GmbH
- **Input preparation and output valorization for biomass-to-energy plants**
Uwe Becher, ALTATEC GmbH

15:40 **Discussion**
